

Name: Timothy Hutzley
ID: 775859390
Print Date: Jul 21, 2026
Declare Date: Aug 15, 2022

Academic Level: Undergraduate
Programs of Study: Computer Science (BS)
Data Science (BS)
Degree Awarded: Bachelor's Degree
Degree Date: May 15, 2026
Honors: With Distinction

Transfer Credit

CDR IQP - Completion of Degree Requirement IQP

2025 Spring Semester

Grade: A

Trump's America & the Environment

This research analyzes U.S. political developments under the new Trump administration for the Taiwan Institute of Economic Research, focusing on environmental policy and forecasting future policy trajectories. We analyzed scholarly articles, press accounts, and conducted expert interviews to develop four policy briefs on Trump's Policy Making Process, Trump's Anti-Environmental Approach, and Reactions from NGOs and Industries. Our findings highlight the expansion of executive power, environmental deregulation, NGOs taking action through legal battles or state legislature, and industries expressing concern over policy uncertainty. We assess Trump's alignment with the Project 2025 blueprint and emphasized Taiwan's commitment to environmental protection despite shifting U.S. priorities.

CDR MQP - Completion of Degree Requirement MQP

2026 Spring Semester

Grade: A

Assessing Financial Literacy via Data Visualizations and AI

We developed a financial literacy web app for young adults to explore whether an AI coach improved engagement and learning. While financial literacy is especially important for young adults making major future decisions, our results showed the AI coach did not improve outcomes. Average engagement was 14.9/30 with the coach versus 17.9/30 without, and self-assessment improved by 0.2 compared to 0.8. The AI coach was used mainly for comprehension check support and clarifying information.

CDR HUA - Completion of Degree Requirement HUA

2026 Spring Semester

Grade: B

Meaning of Life: Discipline and the Pursuit of Meaning

Essay for Inquiry Seminar: Meaning of Life that argues that discipline is necessary in some form for the pursuit of meaning in life because meaning cannot remain only an inward belief or feeling. Through Marx, Martin Luther King Jr., Ayn Rand, and the Dhammapada, the essay shows that discipline allows deeply held values to be carried into action, restraint, and commitment. While not every form of discipline is meaningful, discipline that remains connected to "free, conscious activity" or understanding the self becomes essential for turning meaning into a lived reality.

WORCESTER POLYTECHNIC INSTITUTE

Worcester, Massachusetts

ACCREDITATION

WPI is fully accredited by the New England Commission of Higher Education (formerly the New England Association of Schools and Colleges). Accreditation indicates that the institution has been carefully evaluated and found to meet standards agreed upon by qualified educators. Many individual programs are accredited by discipline specific agencies. Please see <http://www.wpi.edu/about/accreditation> for the most up to date information.

RELEASE OF INFORMATION

The Family Education Rights and Privacy Act of 1974 prohibits the release of this record to any other person or agency without the express written consent of the student named on the transcript.

CALENDAR AND ACADEMIC LOAD

Undergraduate calendar

Consists of four accelerated terms in two semesters plus an optional summer term.

Fall A term: 7 weeks Spring C term: 7 weeks

Fall B term: 7 weeks Spring D term: 7 weeks

Summer (E) terms: 5, 7, 10, or 14 week sessions

Normal undergraduate academic load consists is one unit (9 credits) per term.

Graduate calendar

The majority of graduate level courses run on a traditional 14-week semester, but may vary depending on program.

DEGREE REQUIREMENTS-UNDERGRADUATE PROGRAM

1986 and thereafter – 15 units (135 credits)

Including the completion of three projects.

Major Qualifying Project (MQP)

Interactive Qualifying Project (IQP)

Sufficiency/Humanities & Arts Requirement

(an 80-word abstract of each project is located on the transcript)

Descriptions of these three projects may be found in the University catalog.

GRADES AND CREDIT

Non-degree seeking students, graduate students, and undergraduate students (prior to 1971) follow the traditional scale.

A	4.0	
B	3.0	
C	2.0	
D	1.0	Unacceptable for graduate credit
F	0.0	
P	—	Pass; Minimum grade of C obtained
X	0.0	Fail for pass/fail courses

With the implementation of the WPI Plan in 1970, undergraduate student performance was evaluated on the basis of Distinction and Acceptable.

1971-1986	AD/DIST	Distinguished Work	Equivalent
	AC	Acceptable Work	A B/C
1986-Present			
	A	Distinguished Work	
	B	Acceptable Work	
	C	Acceptable Work	
	P	Pass; Minimum grade of C obtained	
	Unacceptable work in regular courses is not recorded		

Other grades appearing on transcript

AU	Audit
SP	Interim grade indicating satisfactory progress during the respective term
UP	Unsatisfactory progress
DEF	The work is continuing and a grade will be assigned upon completion
I	Incomplete
NAC	The student did not perform satisfactorily on the project or independent study
CR	Transfer Credit
L	Advanced Placement or course waived, no substitution required
AT	Attended
S	Satisfactory
? or Q	Grade not on file
W	Withdrawn; Not factored in GPA
/R	Repeated Course
NC	No credit awarded; Not factored in GPA

Undergraduate semester credit hour equivalents may be determined according to the following conversion table:

1 unit	=	9 credit hours
1/2 unit	=	4.5 credit hours
1/3 unit	=	3 credit hours
1/6 unit	=	1.5 credit hours
1/9 unit	=	1 credit hour
1/12 unit	=	.75 credit hour

CUMULATIVE GRADE POINT AVERAGE

Undergraduate Students

WPI does not maintain a cumulative grade point average for undergraduate students. A student requiring a cumulative grade point average for external use may apply to the Registrar and receive a numerical equivalent based on a point assignment of A=4.0, B=3.0, C=2.0, while DIST and AC grades will be 4.0 and 2.75 respectively.

Graduate Students

Grades are assigned the following grade points: A = 4.0, B = 3.0, C = 2.0, D = 1.0 and F = 0.0. The grade point average is calculated as the sum of the products of the grade points and credit hours for each registered activity in the average, divided by the total number of credit hours for all registered activities in the average. If a student takes the same course more than once, the course enters the GPA only once, the most recent grade received for the course being used in the average.

COURSE NUMBERING SYSTEM

1000-4999	Undergraduate Level
500-999	Graduate Level
5000-9999	Graduate Level

CROSS-REGISTRATION COURSES

Course subjects beginning with "CO"

AC	=	Assumption College
AMC	=	Anna Maria College
BC	=	Becker College
CSV	=	Cummings School of Veterinary Medicine
CU	=	Clark University
HC	=	College of the Holy Cross
MCP	=	Mass. College of Pharmacy and Health Sciences
QCC	=	Quinsigamond Community College
UMM	=	University of Massachusetts Medical School
WSU	=	Worcester State University

TRANSFER CREDIT

Students may apply to transfer credit for courses taken at other institutions. Transfer credit allowed is determined upon admission to WPI. A student taking courses at other schools subsequent to enrolling at WPI must have advance approval from the respective department and a review of performance to receive transfer credit.
